

# COVID-19

## PROTECT YOURSELF, SHOW YOU CARE

During the COVID-19 pandemic, we need to protect ourselves and others while out working, shopping, visiting, eating, exercising, or enjoying nature. One Imaging has many options to keep you comfortable, healthy, and safe.

A: Personalized Branded Face Mask

### A: Personalized Branded Face Mask

Both pre-symptomatic and asymptomatic transmission are possible in the days before symptoms begin. Wearing masks in public helps reduce the spread of potential virus-carrying droplets. One Imaging's face masks keep you and others safe, are comfortable, and can be branded with your company logo.

B: Face Shield

C: Cap Guard

E: Wish Hand Sanitizer

### B: Face Shield

Sometimes face masks aren't enough to stop airborne droplets in a particular environment, and a face shield is necessary for a higher level of protection. Our face shields are anti-fog, lightweight, cleanable, re-usable, and have a comfortable head band and back strap. They are a great option for employees who want eye coverage and deal with the public, transparent face shields expose the mouth. This allows customers/clients who are hard of hearing or deaf to lip read what the server, receptionist, healthcare worker, or cashier is saying.

### C: Cap Guard

Our clear, plastic, cleanable, and reusable Cap Guard attaches to the brim of any standard baseball hat (branded or not) or visor. Use it as an added layer of protection against Covid-19, or wear alone for clear communication.

### D: Safety and Wayfinding Signage

These signs help keep your workplace and retail space safe. They are available on cling or removable vinyl or paper. Antislip, long-lasting floor decals can be used on carpet, flooring or pavement.

D: Safety and Wayfinding Signage

### E: Wish Hand Sanitizer

This brand kills 99.99% of most common germs, and has 70% alcohol content, higher than the at least 60% recommended by the CDC. Convenient when in public places where hand washing is not an option, this sanitizer has Vitamin E so your hands stay moisturized.

### F: 5-Day Defense Kit

Do you like one-stop shopping? Then you'll want our 5-Day Individual Defense Pack where each convenient kit contains safeguards against the spread COVID-19 in the workplace: 5 face masks, 1 reusable 5-day face shield, 2 face loop extenders, and a portable bottle of 99.99% germ-busting hand fabulous smelling non sticky hand sanitizer.

### G: Face Shield Double Pack

Compliant with government standards, this convenient package has two acrylic face shields to curtail COVID-19 transmissions (and other airborne particulates) in the workplace.

F: 5-Day Defense Kit

G: Face Shield Double Pack
